Mazatzal Substation and 345-kV Interconnection Project

Docket No.
L-00000D-11-0068-00160
Arizona Corporation Commission
Decision No. 72302

*Certificate of Environmental
Compatibility Compliance*

December 2013

**Arizona Public Service
Mazatzal Substation and 345-kV Interconnection Project**

*Summary of Certificate of
Environmental Compatibility Compliance*

Introduction:

Arizona Public Service Company (APS) submits the following self-certification documentation pursuant to Condition 18 of the Mazatzal Substation and 345-kV Interconnection Project, Certificate of Environmental Compatibility Case No. 160, Docket No. L-00000D-11-0068-00160, Decision No. 72302 (May 04, 2011).

No construction activities have occurred as of November 1, 2013; therefore, many of the Certificate Conditions do not apply at this time.

The following Condition Table lists all of the requirements and the status of compliance activities.

Arizona Public Service
Summary of Certificate of Environmental Compatibility Compliance
Mazatzal Substation and 345-kV Interconnection Project (Case 160)

Condition 1

Certificate Condition	Action of Compliance
Any transfer or assignment of this CEC shall require the assignee or successor to assume all responsibilities of the Applicant listed in this CEC and its conditions in writing as required by A.R.S. § 40-360.08(A) and R14-3-213(F) of the Arizona Administrative Code.	At the time of this filing, APS does not intend to transfer or assign this CEC to another utility.

Condition 2

Certificate Condition	Action of Compliance
During the construction of the Project, Applicant shall comply with all applicable statutes, ordinances, master plans and regulations of the United States, the State of Arizona, and any other governmental entities having jurisdiction, and their agencies or subdivisions, including but not limited to the following: 2.1 all applicable land use regulations; 2.2 all applicable zoning stipulations and conditions, including but not limited to landscaping and dust control requirements; 2.3 all applicable water use, discharge, and/or disposal requirements of the Arizona Department of Water Resources (the "ADWR") and the Arizona Department of Environmental Quality (the "ADEQ"); 2.4 all applicable noise control standards; and 2.5 all applicable regulations governing storage and handling of hazardous chemicals and petroleum products.	APS standard practice includes compliance with all existing standards, regulations, and ordinances where applicable.

Condition 3

Certificate Condition	Action of Compliance
Applicant shall obtain all approvals and permits required by the United States, the State of Arizona, and any other governmental entities having jurisdiction necessary to construct the Project.	A summary of permits and approvals is included with this filing.

Condition 4

Certificate Condition	Action of Compliance
If any archaeological site, paleontological site, historical site or an object that is at least fifty years old is discovered on state, county or municipal land during construction of the Project, Applicant or its representative in charge shall promptly report the discovery to the Director of the Arizona State Museum, and in consultation with the Director, shall immediately take all reasonable steps to secure and maintain the preservation of the discovery as required by A.R.S. § 41-844.	APS standard practice includes compliance with A.R.S. § 41-844.

Condition 5

Certificate Condition	Action of Compliance
If human remains and/or funerary objects are encountered on private land during the course of any ground-disturbing activities relating to the construction of the Project, Applicant shall cease work on the affected area of the Project and notify the Director of	APS standard practice includes compliance with A.R.S. § 41-865.

the Arizona State Museum as required by A.R.S. § 41-865.

Condition 6

Certificate Condition	Action of Compliance
Applicant shall comply with the notice and salvage requirements of the Arizona Native Plant Law (A.R.S. §§ 3-901, et seq.) and shall, to the extent feasible, minimize the destruction of native plants during Project construction.	APS standard practice includes adherence to the Arizona Native Plant Law, where applicable.

Condition 7

Certificate Condition	Action of Compliance
This authorization to construct this Project shall expire in five years from the date the CEC is approved by the Arizona Corporation Commission (the "Commission"). However, prior to expiration, Applicant may request that the Commission extend this time limitation.	Project was certificated May 4, 2011. Authorization to construct the Project expires May 4, 2016.

Condition 8

Certificate Condition	Action of Compliance
In the event that the Project requires an extension of the term of this CEC prior to completion of construction, Applicant shall use reasonable means to notify all landowners and residents within one mile of the Project corridor, all persons who made public comment at this proceeding, and all parties to this proceeding of the request and the date, time and place of the hearing in which the Commission will consider the request for extension.	Should the Project require an extension of the term of the Certificate prior to completion of construction, APS will comply with this condition.

Condition 9

Certificate Condition	Action of Compliance
Applicant shall make every reasonable effort to identify and correct, on a case-specific basis, all complaints of interference with radio or television signals from operation of the transmission lines and related facilities addressed in this CEC. Applicant shall maintain written records for a period of five years of all complaints of radio or television interference attributable to operation, together with the corrective action taken in response to each complaint. All complaints shall be recorded to include notations on the corrective action taken. Complaints not leading to a specific action or for which there was no resolution shall be noted and explained. Upon request, the written records shall be provided to Staff of the Commission.	APS standard practice includes tracking and responding to complaints of interference with radio and television signals as they are submitted to APS.

Condition 10

Certificate Condition	Action of Compliance
<p>Within 120 days of the Commission decision granting this CEC, Applicant shall post signs in public rights-of-way giving notice of the Project corridor to the extent authorized by law. Applicant shall place signs in prominent locations at reasonable intervals such that the public is notified along the full length of the transmission line until the transmission structures are constructed.</p> <p>To the extent practicable, within 45 days of securing easement or right-of-way for the Project, Applicant shall erect and maintain signs providing public notice that the property is the site of a future transmission line. Such signage shall be no smaller than a normal roadway sign.</p>	<p>APS has complied with this Condition. The sign was posted at the site within 120 days of the CEC approval.</p> <p>There are no private easements to acquire on this Project.</p>

The signs shall advise:

- 10.1 that the site has been approved for the construction of Project facilities;
- 10.2 the expected date of completion of the Project facilities;
- 10.3 a phone number for public information regarding the Project;
- 10.4 the name of the Project;
- 10.5 the name of Applicant; and
- 10.6 the website of the Project.

Condition 11

Certificate Condition	Action of Compliance
Applicant, or its assignee(s), shall design the transmission line to incorporate reasonable measures to minimize impacts to raptors.	APS standard design practices include efforts to minimize the risk to raptors.

Condition 12

Certificate Condition	Action of Compliance
Applicant, or its assignee(s), shall use non-specular conductors and non-reflective surfaces for transmission line structures.	APS standard design practices include the use of non-specular and dulled surfaces for transmission structures.

Condition 13

Certificate Condition	Action of Compliance
Before construction on this Project may commence, Applicant shall file the plan of development referred to as the "Site Development Schedule and Site Plan" required by the Tonto National Forest prior to issuance of the Special Use Permit, hereinafter referred to as the "Plan," with the Commission Docket Control. Where practicable, the Plan shall specify that Applicant shall use existing roads for construction and access, minimize impacts to wildlife, minimize vegetation disturbance outside of the Project right-of-way, particularly in drainage channels and along stream banks, and shall re-vegetate, unless waived by the landowner, native areas of construction disturbance to its preconstruction state outside of the power line right-of-way after construction has been completed. The Plan shall specify Applicant's plans for coordination with Arizona Game and Fish Department ("AGFD") and the Arizona State Historic Preservation Office (the "SHPO"). Applicant shall protect against invasive species and noxious weeds by adhering to the measures presented in the Plan.	Construction has not commenced as of November 1, 2013; however, activities and documents related to this Condition will be provided, if applicable, in a future self-certification filing.

Condition 14

Certificate Condition	Action of Compliance
With respect to the Project, Applicant shall participate in good faith in state and regional transmission study forums to coordinate transmission expansion plans related to the Project and to resolve transmission constraints in a timely manner.	APS coordinates its transmission planning with other transmission providers and stakeholders in the Desert Southwest, and the Western Interconnection as a whole, through its active participation in the Southwest Area Transmission (SWAT) planning group, membership in WestConnect, membership in the Western Electricity Coordinating Council (WECC), and participation in the WECC Transmission Expansion Planning Policy Committee (TEPPC) and its Technical Advisory Subcommittee (TAS).

Condition 15

Certificate Condition	Action of Compliance
Applicant shall provide copies of this CEC to the Gila County Department of Community Development, the Arizona Department of Transportation, the SHPO and AGFD.	APS has complied with this Condition. APS provided a copy of the Certificate via certified mail to the designated parties on May 27, 2011. A sample letter was included with the 2011 self-certification filing.

Condition 16

Certificate Condition	Action of Compliance
Before construction commences on this Project, Applicant shall provide known homebuilders and developers who are building upon or developing land within one mile of the center line of the certificated route of the transmission line, and written description of the Project. The written description shall identify the location of the Project and contain a pictorial depiction of the type of transmission line being constructed. Applicant shall also encourage the developers and homebuilders to include this information in the developers' and homebuilders' homeowners' disclosure statements.	Construction has not commenced as of November 1, 2013; however, activities and documents related to this Condition will be provided, if applicable, in a future self-certification filing.

Condition 17

Certificate Condition	Action of Compliance
Applicant will follow the most current Western Electricity Coordinating Council/North American Electric Reliability Corporation planning standards, as approved by the Federal Energy Regulatory Commission, and National Electrical Safety Code construction standards.	APS standard design practice follows the Western Electricity Coordinating Council/North American Electric Reliability Corporation planning standards, as approved by the Federal Energy Regulatory Commission, and National Electrical Safety Code construction standards.

Condition 18

Certificate Condition	Action of Compliance
Applicant shall submit a compliance-certification letter annually, identifying progress made with respect to each condition contained in the CEC, including which conditions have been met. Each letter shall be submitted to the Commission Docket Control commencing on December 1, 2011. Attached to each certification letter shall be documentation explaining how compliance with each condition was achieved. Copies of each letter along with the corresponding documentation shall be submitted to the Arizona Attorney General and Department of Commerce Energy Office (or its successor organization.) The requirement for the compliance-certification shall expire on the date the Project is placed into operation.	Compliance with this Condition is evidenced by the submission of this filing.

Condition 3

Applicant shall obtain all required approvals and permits required by the United States, the State of Arizona, and any other governmental entities having jurisdiction necessary to construct the Project.

Compliance

As of November 1, 2013, APS has applied for the following permits and approvals associated with the Mazatzal Substation and 345-kV Interconnection Project. The following table lists the status of these permits or approvals.

Issuing/Approving Agency	Type	Application/Approval Status
United States Forest Service	FONSI	Approved 8/24/2010
Tonto National Forest	Special Use Permit (SUP)	Submitted 2/13/2007
